FIGURES THAT DO NOT LIE.—We have, from time to time, published a number of extraordinary prophecies concerning men and nations in Europe. The following singular juxtaposition of figures would seem to indicate that there are "more things in heaven and earth than are dreamed of in our philosophy."

"Robespierre fell from power in 1794, and the Napoleon era may be dated from the same year; add to 1794 the four component numbers 1, 7, 9, 4—21, and we come to 1815, the year Napoleon's power finally ended. Louis the XVI ascended the throne in 1774; add 1, 7, 4, to 1774, and they make 1793, the year that ill-fated monarch was executed.

"The great French Revolution began in 1789; add to this 1, 7, 8, 9, and arrive at the year 1814, when the exile to Elba put an end to the French conquests in Europe.

"The Bourbons were restored in 1815; add this date to 1, 8, 1, 5, and we have the date 1830, when the Bourbons were once more expelled.

"Louis Philippe was born in 1773, and came to the throne in 1830; add 1830 to 1, 7, 7, 3, and we come to 1848, the year of his expulsion.

"His Queen, Amelia, was born in 1782; add 1830 to 1, 7, 8, 2, and we arrive in the same way at the precise year, 1848.

"Napoleon the Third was born in 1808, and was crowned Emperor in 1853; add to 1853 1, 8, 0, 8, and you get 1870, the present year and his downfall.

"Again, his Empress, Eugenie, was born in 1826; add 1853 to 1, 8, 2, 6, and there similarly arises the date 1870.

"Again, add 1853 to 1, 8, 5, 3, and for the third time you arrive at 1870."

Emanuel Swedenborg attached a mystic importance to the science of numbers, and the extraordinary combinations cited above would seem to warrant the belief that he had reason as well as revelation on his side.

The New York Sun, edited by Mr. Dana, Assistant Secretary of War under the late Mr. Stanton, publishes the following paragraph:

"If the Republicans want to make any headway in the coming election in this State, they must cut all connection with Grant's administration, and take strong ground against putting a man at the head of the State Department who makes \$60,000 by a single bribe."

"BAD BLOOD."
"THE LIFE IS THE BLOOD."
FROM it we derive our strength, beauty and mental capabilities. It is the centre of our being, around which revolves all that makes existence happy. When this source is corrupted, the painful effects are visible in many shapes, prominent among which is **SOROFULA.**

This is a taint or infection of the human organism, and probably no one is wholly free from it. It establishes itself in various shapes—as Ulcers and Sores, Decayed Bones, Discolored Skin, Sore Eyes, Weak and Diseased Joints, St. Vitus' Dance, Foul Discharges from the Nostrils, Eruptions, Glandular Swellings, Throat Affections, Rheumatism, Heart Affections, Nervous Disorders, Barrenness, Disorders of the Womb, Dropsy, Syphilis Affections, Liver Complaint, Salt Rheum, Dyspepsia, Neuralgia, Loss of Manhood and General Debility.

It has been the custom to treat these diseases with Mercury and other Mineral substances, which, though sometimes producing a cure, often prove injurious, and entail misery in after life. The long known injurious properties of these so-called alteratives and purifiers has led the philanthropic man of science to explore the arena of nature, the result of which has been the discovery of vegetable products which possess the power of eradicating these taints from the Blood.

TUSKEGEE, ALA., November 21, 1869.
Mr. L. H. Bradfield—Sir: Please forward me, immediately, another supply of Bradfield's Female Regulator. We find it to be all that is claimed for it, and we have witnessed the most decided and happy effects produced by it. Very respectfully,
HUNTER ALEXANDER,
ATLANTA, GA., December 29, 1869.

Dr. J. Bradfield—DEAR SIR: I take pleasure in stating that sometime previous to the late war, I used, with utmost success, on a servant girl, your Female Regulator, prepared then at Bradfield's Drug Store, West Point, Ga. She had been suffering severely from suppressed menstruation, and this medicine restored her to health. She is, to-day, living in Atlanta, sound and well.

I will state further, that I know of its being used, with equal success, in other cases. I do not hesitate to endorse your preparation for the purpose for which you recommend it.

Yours truly,
JOHN C. WILKINSON,
LAGRANGE, GA., March 23, 1870.

Bradfield & Co., Atlanta—DEAR SIR: I take pleasure in stating that I have used, for the last twenty years, the medicine you are putting up, known as Dr. J. Bradfield's Female Regulator, and consider it the best combination ever gotten together for the diseases for which it is recommended. I have been familiar with the prescription both as a practitioner of medicine and in domestic practice, and can honestly say that I consider it a boon to suffering females, and can but hope that every lady in our whole land, who may be suffering in any way peculiar to their sex, may be able to procure a bottle, that their sufferings may be not only relieved, but that they may be restored to health and strength.

With my kindest regards, I am respectfully,
W. B. FERRELL, M. D.
ATLANTA, GA., March 12, 1870.

I have examined the recipe of Bradfield's Female Regulator, and from my knowledge of the ingredients, believe it a most excellent Medicine, and well suited to that class of diseases designated. I have no hesitation in advising its use, and confidently recommend it to the public.

JOEL BRANHAM, M. D.
NEAR MARKET, GA., March 21, 1870.

Messrs. William Root & Son—GENTLEMEN: Some months ago I bought a bottle of Bradfield's Female Regulator from you, and have used it in my family with the utmost satisfaction, and have recommended it to three other families, and they have found it just what it is recommended. The females who have used your Regulator are now in perfect health, and are able to attend to their household duties, and we cordially recommend it to the public.

Yours respectfully,
REV. H. B. JOHNSON,
NEAR MARKET, GA., March 21, 1870.

Messrs. William Root & Son: About one year ago I bought a bottle of Bradfield's Female Regulator from you, for one of my daughters, who had been suffering with suppressed menstruation. She has now had several Physicians attending to her with no success, until I was persuaded to buy a bottle of the Regulator, and it is the very thing for which it is recommended. She is now in perfect health. I hope all suffering females will, at least, try one bottle, and have health again.

Yours respectfully,
D. DOBINS,
We could add a thousand other certificates; but we consider the above amply sufficient proof of its virtue. All we ask is a trial.
